

Faculty of Agriculture
KHON KAEN UNIVERSITY
Ministry of Higher Education, Science, Research and Innovation

26th October, 2021

To Whom It May Concern,

This is to certify that the proposed courses from the project “Sustainable Seafood and Nutrition Security (SSNS)” have been incorporated in the revised Master of Science Programme in Fisheries of the Faculty of Agriculture, Khon Kaen University since September 2019. The courses are described as follows:

| Code | Courses | Credit | Semester |
|-----------|--|----------|----------|
| AG187 753 | Aquafeed Formulation and Feeding System (major elective course) | 3(2-3-5) | First |
| AG187 763 | Quality Assessment and Quality Control of Aquatic Animal Product (major elective course) | 3(2-3-5) | First |
| AG187 723 | Broodstock Management and Aquatic Animals Production (major elective course) | 3(3-0-6) | First |
| AG187 764 | Aquatic Animal Processing Technology for Entrepreneur (major elective course) | 3(3-0-6) | Second |
| AG187 733 | Marketing Management in Aquaculture Business (major elective course) | 3(3-0-6) | Second |
| AG187 745 | Fish Disease and Water Quality Control (major elective course) | 3(2-3-5) | Second |

The Master of Science Programme in Fisheries is currently in a revision process and the newly revised program will be offered in the first semester of 2022.

Sincerely,

Asst. Prof. Dr. Siripavee Charoenwattanasak

Associate Dean for Education, Legal Representative of the Dean, Faculty of Agriculture,

Khon Kaen University, Thailand
